
Volume 26 Issue 2 - August 2020

Dogmatic - Newsletter of Hawke's Bay Dog Training Club Inc.

Greetings,

Welcome back! What a very strange year - you all know about Covid-19 so I won't harp on about it except to say well done everyone for playing your part in keeping us all safe.

There have of course been repercussions for the running of the Club but they are minor in comparison to what might have been! The Racecourse had to close completely during Levels 4 and 3 and the public, including us, were only allowed back on the grounds at Level 1 - so training schedules went out the window but we're up and running and have revised term dates (see side panels). Shows were cancelled and people are busy scrambling around to re-schedule where possible. I'm pleased to say that we are fortunately still able to hold our Championship Obedience Trial 26/27 September at Napier DTC grounds and our Championship Agility Event 21/22 November at Farndon Park, Clive - volunteer helpers always welcome even if you can only spare a couple of hours.

We held the Club's AGM on 28 July - Dionne Robinson had to step down as President, as three years is the maximum allowed under the Club's Rules. Dionne will, I'm pleased to say, remain on the Committee. Wendy Austin was duly elected President and she has kindly written an introductory piece about herself, see page 3. The full Committee list is on page 2 and you are welcome to contact any of them should you have queries, ideas or suggestions.

The weekend of 25/26 July saw Agility Championship shows get back under way - the first on the North Island was at Horowhenua. NZARO held a very successful RallyO expo 18/19 July and Dogs NZ got underway 1/2 August for both RallyO and Obedience Champ shows. And there's even a few results listed on page 13. Our Scentwork show scheduled for April will now be held on 30 August.

Training is under way for all of the disciplines that the Club offers, so if you're unsure what's available to you, have a look through the reports in this Newsletter. We've also set the date for the Xmas (yes already) break-up as 16 December - so mark it down on your calendar, phone or where-ever - its a fun evening for all.

Enjoy training and make sure you both have lots of fun.

Cheers - Jackie

Club Dates 2020/21

President's Report from the AGM (28 July 2020)

Thank you for attending this years AGM. It's great to see everyone together after these long times of little or no contact.

Back in September 2020 we held our Obedience Championship show on both days we had some really good entries. This was very successful and profitable for the club. Thanks once again must be given to our sponsors that are so obliging and we do really appreciate them.

The Agility show in November had amazing amount of entries. One of the biggest we have had for some time. Once again, all the hard work does pays off. The show was run smoothly with members working hard to make this show a success. Thank you to all those involved. At that point life was good and we had not even heard of the dreaded Corona Virus.

Fast forward to April 2020, suddenly every freedom and routine we were used to get thrown out the window. Ours shows were sadly cancelled, including our Jumpers Show, CGC Assessment in May and our very first Scent Work show have had to be cancelled due to Covid-19. These restrictions that were in place, affected our domestic classes as well.

Covid-19 raced through our world giving us all challenging times balancing life with our Society responsibilities as well as our dog's lives. These seemed to go on forever and seeing what was happening overseas I thought we would be in the situation for a lot longer.

It is now July and we are now able to resume all training which is great news. It's amazing to find that we can miss all the simple things in life when they are taken away from you.

Good to see all our members are back to training and our domestic classes are looking to be quite full these next few terms. So that is exciting for our club.

Once again, I must thank all our hard-working committee members who continue to work for the best interest of the club. Who give up their precious time throughout the year? I thank everyone for this.

I would like to finish by saying that I have enjoyed being the President although I must say rather trying at times. I wish the new President all the best and smooth running.

Kind Regards
Dionne Robinson

An introduction to our new President - by Wendy Austin

First I would like to thank Dionne Robinson for standing as President for the last 3 years, I have big shoes to fill that's for sure! My journey as a dog owner started 6 years ago with my first dog Max a Pedigree Rottweiler he has been such a lovely dog to have as my first, I've learnt so much from owning a dog! What not to do and what to do! It is a journey owning a dog and each one is unique in their own personality and way. My second again was a Rotti Max's half sister Ava and from the things I learnt not to do she has been a lovely dog to own. I have been a member of the Hawke's Bay Dog training club all of that time, enjoying the classes and lapping up all the wonderful knowledge from the instructors here at the club. The dog sports that I have enjoyed with the club are Obedience, Scent work and Working Trials. I haven't tried Agility, but you never know! Please feel free to introduce yourself to me at the club. I'll be at the club on a Wednesday taking the Domestic Adv 1. And you will see me with Max at scent work too. Happy training!

Wendy

Agility Report

We are running one combined class at 6.30 pm on Tuesdays. Agility link (normally the first Tuesday of the month) will start at 6 pm. Can people please arrive earlier to help set up the gear for both classes and link. Our foundation class starts at 5.45 pm. Thanks to Sharon and Dee for being our great instructors.

Please remember to let me know if you won't be coming to class, as the number of people attending affects what training exercises we set up. I can be contacted on 027 223 3539 or rfargherk9s@gmail.com. I am unlikely to see any message sent after 4.45 pm as I have a dog in the foundation class as well.

Now that shows have started again our members are enjoying some great results.

Club members have also had some good results with the year's results in the Nala competition.

The lockdown meant that our jumpers show in April didn't happen, but Napier DTC are running a championship jumpers show on 5 & 6 September. Entries close shortly so make sure you get them in on time. Another date to put in your calendar is our big show at Clive on 21 & 22 November. We always welcome help with this show.

Obedience Report

Well it does seem scary talking about classes taken way back in February/March. Puppy class people were really lucky that term to be taken by Lorraine, who kindly helped me out. This was in the hope that I would be able to take my new puppy Piper to a class but unfortunately that was not meant to be. Again a big thanks for Lorraine stepping in for this, it sure was appreciated.

Class this term took a while to get up and going as we were all trying to sort out the Policies and Regulations now required due to the dreaded Covid-19.

By June we were able to restart our missed classes with some welcomed normality.

This extended season became a shocker with the weather, however this enabled us to use the Riding for the Disabled Arena. There is always a positive outcome from changes and in this case, it allowed us to get in some quite different forms of training, such as a lot more off lead recalls.

It was actually quite nice being in under cover, as well as training on a different surface.

I am finding that a lot of people are making enquires for the next term beginning in August.

Due to the Corona Virus restrictions, they totally missed out on Socializing, puppy classes and any form of pack training. It will be interesting to see how these last few months being cooped up have changed the expected behaviour of the puppies/dogs and their owners!

Once again, I really would like to thank our awesome team of Obedience Instructors Chrissy, Heather, Lorraine and Wendy for doing such a valued job of teaching our obedience classes. See you all out having fun training.

Cheers

Dionne

Rally-O Report

RallyO is a sport where you are working for qualifying certificates rather than a first past the post system. It is about having fun with your dog, and it is a great way to build your bond with your dog.

We continue to have a large number of dogs competing in the monthly RallyO link competitions with some great results for the year.

Our year has not gone as planned but Rallyo link and training has started again. There will be a small Rallyo competition later this year although the date still has to be confirmed.

NZARO ran a successful expo in Feilding a few weeks ago. This is a great indoor venue. Please think about attending next year.

We have the monthly competition on the first Monday of the month, and training on the third Monday of the month. Feel free to come along and have a look to see what is involved. Feel free to email me at rfargherk9s@gmail.com if you wish to be added to our RallyO email list.

Robyn

Scent Work Report

Our classes are doing really well. At the moment we now have an indoor venue in town to use for the colder nights. Yaay we won't have to cancel any scentwork nights now and the first night we didn't even notice the cold.

We also have an upcoming trial to be held on Sunday the 30th of August at the Unison Depot, Whakatu. We are lucky Unison have very kindly let us use their venue again. We will need a couple of people to do photos for us. If anybody is free and would like to help it would be very appreciated.

There is four of us who have passed the Novice Level under the SSANZ rules. That is Essam Girgis, Maria Noanoa, Dionne Robinson and Tracy Stephenson. Congratulations. The certificates have been posted so just waiting on them.

Canine Good Citizen (CGC) Report

The CGC group continues to work hard with the interrupted year. Lockdown meant that our assessment scheduled for May had to be cancelled.

I am currently trying to organise a new assessment for the early part of 2021. This could become a very large event with the number of dedicated people that regularly attend class!

With winter the classes have been making the most of being uptown, lots of space and lights! We have visited, among others, Pak'n'save, Mega Mitre 10 and the Hastings District Council. Plenty of variety and the dogs are taking it all in their strides, doing recalls and the ups in unusual surroundings.

CGC is a great concept, the dogs and their humans get a lot of enjoyment out of being together in the group and it is always so nice to see happy dogs and their happy people.

Flygility Report

Welcome to the most exciting sport offered by our club! Flygility - is a cross between Flyball (which some of you may have seen on telly from Crufts) and Agility. Subtle differences - flyball only runs as teams of 4 dogs like a relay race and always over a dead straight course. Flygility can be run as individual, pairs or triples; dogs negotiate an agility course to the box (where they retrieve a tennis ball) and return over the course carrying the ball to their handler. In Flygility. There are various levels of competence for the dogs ranging from Beginner to Advanced. Dogs and handlers get really wound up, whether its at our home grounds competing against the clock and clubs from around the country in the NALA link or at tournaments where the dogs are racing one and other as well as negotiating various type of agility courses.

Each year, we organise at least one tournament jointly with CHB under the name of Tukituki Flyers - and we have our next tournament on 24/25 October (Labour Weekend) you're welcome to come along - you'll be treated to some very excited dogs racing as if their lives depended upon it!

We really welcome new handlers and their dogs - so if you're not sure what flygility is, or if you'd like to try it, toddle over to club on the 2nd or 4th Monday of the month about 6.15 and have a nose.

Vet Report-Nicky Chadwick (Animal Care 2002 Ltd)

Dental disease in dogs, more common than you think!

Dental disease affects around 80% of dogs from 3 years of age! In fact, it is the most common disease that we see in the dog. Clinical signs are often not apparent until the disease is advanced as dogs are incredibly good at hiding signs of pain. In addition, most dog owners are not very vigilant at checking the teeth of their canine companion.

Clinical signs we may see are:

1. Bad breath
2. Yellow/brown discolouration (tartar) around the gum line
3. Red/swollen gums (gingivitis)
4. Discolouration around the mouth and/or drooling
5. Rubbing/pawing at the mouth
6. Decreased appetite, difficulty eating, inactivity
7. Swelling/bumps on the face
8. Loose/missing teeth

What causes dental disease in dogs?

Humans commonly suffer from caries which is when bacteria in the mouth attack the enamel of the tooth to cause decay. This is uncommon in dogs. Dogs mainly suffer from periodontal disease, which is a painful inflammatory condition involving bacteria attacking the gums (gingiva), ligaments and bony tissues which support the teeth. Periodontal disease starts with food material

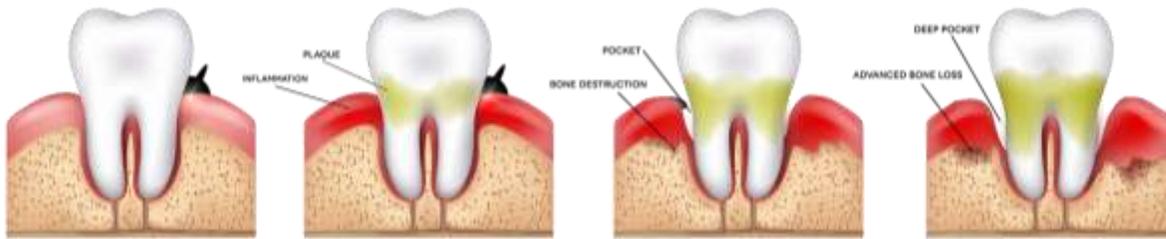

and bacteria attaching to the surface of the tooth, this is called "plaque". The plaque then mineralises and hardens on the surface of the tooth to form tartar, which is extremely hard to remove. Tartar often starts to form on the gum margin of the tooth and this starts to separate the gum from the tooth. Bacteria can then enter this pocket and attack the supporting structures of the tooth, including surrounding bone. In addition, the body mounts an immune response to attack the bacteria leading to inflammation.

It is a progressive and often irreversible disease that eventually leads to the tooth becoming loose and falling out. The bacteria can lead to an abscess and may be shed into the blood stream to cause life threatening infections to the heart or other internal organs. Small breed dogs are more susceptible to periodontal disease due to overcrowding of their teeth and their smaller jaw size, but all breeds may be affected.

Another cause of dental disease in the dog is trauma as teeth are commonly broken when your dog is chewing hard toys/food.

It is estimated that 90% of pets will show marked improvement after dental treatment, such as increased energy, eating more comfortably, and less odorous breath, making your dog more pleasant to be around!

Periodontal disease in the dog:

Normal

Mild

Moderate

Severe

So, what can you do to help?

Firstly, you should get into the habit of regularly checking in your pets' mouth, starting as a puppy so they get used to mouth examinations. Your veterinary surgeon will also check your pets' mouth on routine examinations at the vet clinic.

If periodontal disease is present your dog will need a general anaesthetic for treatment to be effective. Your veterinary surgeon may recommend x-rays to check for damage to the surrounding bone/roots of the teeth which are not visible with oral examination. Treatment will then depend on the stage of the disease. With early periodontal disease your dog may only need ultrasonic scaling to remove the tartar on the tooth and under the gum margin. The tooth is then polished, which makes it more difficult for bacteria to adhere to the tooth after the procedure.

As the disease progresses there are many more advanced procedures that can be performed to save the tooth, but this requires a dental specialist and commitment from the owner. If more than 50% of the

surrounding structures of the tooth are lost then the only option is to remove the tooth, unfortunately this is the stage of disease that we often see as a veterinary surgeon.

If your dog has a broken tooth and it involves the pulp cavity (nerve and blood vessels) in the centre of the tooth, then the only option is a dental specialist to perform a root canal procedure, or tooth extractions. If this tooth is left it will cause ongoing pain and bacteria can enter into the pulp cavity and cause both localised infection and spread to distant organs.

How can we prevent dental disease?

Prevention is definitely better than cure! So, what can we do at home to prevent this painful condition?

- 1) Feed a good diet. Avoid soft wet foods which stick to the teeth, many premium dried foods/dental diets contain substances to help abrade and clean the teeth. The 'Veterinary Oral Health Council' only endorses

foods/treats that are proven to help with periodontal disease – you can check the list online. Be careful with hard toys/chews eg bones, antlers, trotters or very hard toys. Make sure the toy can bend and has some 'give' to prevent breakage of teeth. Use chews or rubber toys specially designed to help with teeth cleaning. Clean your dog's toys regularly to prevent a build-up of bacteria on the surface of the toy.

- 2) Brush your dog's teeth once to twice daily in order to dislodge the plaque before it mineralises into tartar. This sounds like a difficult task, but most dogs will accept brushing if approached in a gentle manner. Ideally begin gently brushing your dog's teeth from a puppy. Start using a soft finger brush or soft cloth and gently rub a few teeth at a time. Use a canine toothpaste available at your vets and gradually progress to a soft long handled brush. Additional there are wipes available which can be easier to use. Do not use human toothpaste as it is not designed to be swallowed due to foaming agents and fluoride. Reward your dog after each session with praise/treats to make brushing a positive experience.

Hi everyone

We need donations for the raffle at the September Obedience Show. The raffle is a great fundraiser for the Club.

Donations don't have to be dog related those unwanted Christmas Gifts would be perfect for our raffle.

We have a box on our club table which you can put the gifts in or if it suits can drop off to Dionne at Hector Jones Ltd

Thank you for helping to support our club.

NALA is the National Agility Link Association. It offers a competition covering 11 months of the year (not July) called the "National Agility Link Novelty Correspondence Series" (NALA or Link for short!!). Each month the competitions are held at the grounds of member clubs and the results are collated by NALA. The results above reflect National placings for the club and individual members. So well done everyone - great work.

IMPORTANT NOTICES

HEALTH AND SAFETY

Racecourse Management has asked me to remind our members about how their health and safety requirements affect our Club.

The racecourse is a work place so there are potential hazards to be aware of namely tractors, vehicles and racehorses. Because of this the Management have asked that we observe the following rules

- **NO dogs or people** on the course or in the Grandstand before 11am - as this is the time when there are horses in training.
- **All dogs** on leads 11am to 5pm because there are people and tractors working during these hours.

The Management has no problem with Club members exercising their dogs off lead after 5pm before class but asks for consideration if there are tractors working - no one wants dogs or people injured.

Always pick up after your dogs and don't forget to take it away with you we don't have a bin service!

We are lucky to have this area to exercise our dogs - please respect it.

AGILITY NOTICES

EQUIPMENT AND TRAINING

Just a reminder to everyone to make sure you assist with getting the agility equipment out and putting in away. Best way to ensure you do remember is to arrive for your class 15 minutes before it's due to start i.e. 5 pm for 5.15pm for Foundation; and so on. And though we all want to get home - just check before you leave what needs to be put away or moved.

GEAR BOOK

So we can keep track of the gear, there is a Gear Book hanging up on the notice board, it must be completed by any **Agility** member who wishes to borrow equipment. **Maximum loan time - two weeks.** It must be dated, have the name of person borrowing the equipment, the equipment borrowed, signed by borrower and countersigned by a committee member or instructor. Note on occasion it may not be possible to borrow gear as it may be required by us or another club - please don't be offended if your request is refused.

If you are thinking about moving, let's work together to help both YOU and Hawke's Bay Dog Training Club achieve a great result.

For every property that is listed and sold with us, we will give \$500 back towards Hawke's Bay Dog Training Club for them to use to benefit your children.

Give me a call today, I would love to hear from you.
